

Proposed Zoning Ordinance Re-write
1/3/12 Section References and Animal Unit Definition Changes

Page 2: The definition of “Animal Unit” was referenced to “Appendix ‘A’ Animal Units Calculator” in an earlier ordinance draft. Appendix ‘A’ was removed by a prior revision, therefore removing the way animal units were defined and determined in the ordinance. This proposed definition for possible introduction references Wisconsin Administrative Code NR 243.03(5) and NR 243.05. These are the references made in Wisconsin Administrative Code ATCP 51, the basis for our livestock facility siting conditional use permit.

Current Definition

Animal Unit: A unit of measurement used to determine the total number of single animal types is attached hereto as Appendix A entitled “Animal Units Calculator.”

Proposed Definition

Animal Unit: Means a unit of measure to determine the total number of single animal types as referenced in NR 243.03(5) and as provided in NR 243.05 of the Wis. Admin. Code, or any amendments thereto.

The remainder of the corrections and changes in section references only and do not involve any changes to the ordinance text:

- Page 6: Reference to s.17.15(3) amended to s.17.14(2)
